## InTENSity™ IF Combo II

The **InTENSity™ IF Combo II** is the newest standard in portable, multifunction electrotherapy offering patients two modalities in one user-friendly, ergonomic design - Transcutaneous Electrical Nerve Stimulation (TENS) and Interferential Stimulation (IF).

The wide-ranging capability of the InTENSity™ IF Combo II provides the most up-to-date treatment technology and waveforms. Equipped with pre-set body part specific settings as well as a customizable option, the InTENSity™ IF Combo II intuitively guides the patient step-by-step to ensure the ideal therapeutic treatment throughout the healing cycle.

This powerful device delivers up to 10,000 Hz of IF therapy with sweep frequency capabilities to prevent accommodation while providing maximum treatment benefits. Simply choose a preset program by body part or customize a program to meet your specific therapy needs.

With the powerful rechargeable lithium ion battery, this portable device can be used at home, at work or on the go.
